

It's time for moveon.org
to move on

Issue #250

Democrats, that means YOU, Frank, it is time to dump the radical wackos at moveon.org. These lunatics are destroying the Democrat party and you guys keep electing more of them. I know you are allergic to all things Republican, but come on, this is out of control. You may as well start flying the old Soviet flag in your yard. If you can't bring yourself to vote Republican, fine, then vote for a moderate independent candidate.

Hillary, Obama, Pelosi, Reid, Schumer, Kennedy, Boxer, Murtha... these people are red commies to the core. They want to control every aspect of your very existence because YOU are to stupid to live by yourself. These guys are moving toward their dream of a Euro-style socialist government.

You want government health care like Hillany? In England there is a guy who was denied service to fix his broken foot because he smokes. We know how liberals feel about tobacco. This will be our world soon and will only get worse if you Democrats don't start voting for more moderate candidates.

So why the moveon.org headline? This crazy group is behind almost every scheme to destroy our nation and take away our freedom to live our own lives. Backed by billions in George Soros money these Stalinists want control of your very life. Because let's face it... were all to stupid to live for ourselves. We need government to help us with everything.

This is the same government that has \$4000 toilet seats in the military. The same government that has spent 11 trillion dollars since 1965 to fight poverty and the poverty rate has not moved since. Yes, it's been between 12-14% ever since. By the way the national debt is only \$9 trillion. Poverty had been in decline for 3 straight decades when they started "The Great Society". We should have kept the 11 trillion bucks and we'd have half the poverty and a \$2 trillion surplus. But Republicans weren't in charge in 1965, were they?

If the Democrats were not so wacky maybe the Republicans would actually act like Republicans. Reagan...save us.

250 issues, wow. I can't believe I have filled two hundred and fifty issues with all this worthless drivel. But rest assured you will not find full page anti-American communist propaganda ads in this fine publication.

We are nearing the end of the 15th year of the Redwood Reporter / Evergreen Times. Crazyness isn't it? Nicole was just an infant when this publication began, and look at her now. She's a young woman in high school! I had yet to be introduced to my wife! When issue #1

came off the press, Bill Clinton had just been inaugurated for his first term.

Frigid Winter this year?

Several climatologists in the Pacific Northwest have analyzed the weather data and have correlated this year to be most like 1996, 1980, and 1964. Historically in those years the winters up here were very rough. In 1996 it was snow and torrential rains along with a huge flood on the mightiest river in the West. In 1980 the all time record for snowfall occurred with nearly 4 feet in downtown Vancouver. 1964 was bitter cold with record lows.

Now Carron and I say, bring it on. Global warming, Global smarming. We like cold winter blasts. Last year we had a good dose of snow, but it was a far cry from the 4 feet that fell in 1980. Now I have not noticed any heavy activity by the squirrels thus far, but it will be interesting to see how they "stock up". Below are images from Vancouver in 1930 when the mighty Columbia river froze solid enough for an airplane to land on it and cars to drive across. This is a mile wide river! The last freeze over was in 1979. Could this year be the next?
