

This is the likely new state flag we will have under Governor

OLYMPIA - Christine Gregoire was sworn in this week as Washington State's new Governor. This may be the most controversial election since the Illinois cemeteries put John Kennedy in the Oval Office in 1960. It will almost certainly be the most contested election in the last 50 years. What is all the hoopla about anyway? Just take a look at the facts. These are actual facts and have not been disputed by either side!

- Twenty Four confirmed dead people voted for Gregoire.

- Zero dead people voted for Rossi.
- 568 rejected King County ballots were counted on the third hand recount.
- King County votes Democrat 70% - 30%
- Rejected ballots were deemed illegal by Gregoire's own ruling as Attorney General.
- 1,120 unconfirmed King County provisional ballots were added on the third count
- Added ballots were included in Gregoire's "illegal" definition as Attorney General.
- Over 1,000 military ballots were not counted in any of the counts.
- Military ballots traditionally favor Republicans 65% - 35%
- The US Military threatened to sue Washington for delaying military ballots.
- Only King County was allowed to "add" previously rejected ballots
- Did I mention King county votes Democrat 70%.

So there you have it, this election is a fraud. Rossi won both machine counts so the Demos brought in the corpses! Christine Gregoire as Attorney General in this very state of Washington declared on the public record that any ballots previously rejected absolutely can not be counted in recounts. She now conveniently takes office breaking her own rules! How interested that all of this is centered around King County. How about the absolute shame of a state denying the US overseas military personnel an opportunity to vote. There they are fighting for their very lives and ours and Gregoire pisses on them. Is there no shame to this party of commies. 62% of Washington voters want a new election. WOW! That is huge since registration in Washington is 55% Democrat!

Now I know that our good buddy Frank is seething right now. He is screaming, "FLORIDA, FLORIDA, FLORIDA"! In the 2000 election Florida was counted and recounted over and over and each time George Bush won the count. The New York Times and several other highly liberal media organizations sent over 600 people to Florida for 6 months to "investigate" the election results in the Sunshine State. They reported back that it was clear W was the victor.

"OHIO, OHIO, OHIO!", he hollers. Bush won Ohio by 118,000 votes. It wasn't close. They are searching for every black voter that showed up a half hour late at the polls so they can yell racism, they are looking for every mispunched ballot they can find. After months of exhaustive searching they have scraped up a few hundred votes for John Kerry. Please, spare me the details.

The Washington State election is tainted with fraud. Dead people voted. Up to 1,120 democrats voted twice. Gregoire used her influence to keep other counties in Washington from adding ballots to the final count. Rejected illegal ballots were allowed to be counted in the third recount but **ONLY** in King County and the US Military ballots were deliberately delayed to the point of a federal lawsuit threat from the US Government forced them to mail the ballots 3 weeks late. They did not arrive in time for the soldiers to vote. I am sickened beyond belief that this evil woman who now resides in Olympia at the Governor's mansion could stoop to such lows.

Mark my words.*

Joker / Meister Northwest?

"Time keeps on ticking, ticking, ticking, into the future..." The words of Steve Miller ring very true as countless Joker / meister fans await the announcement of the Great Northwest Event tentatively planned for this winter. We are 6 weeks into winter boys let's get it on!

Perhaps the Joker team is intimidated by the Pacific North western venue. they have enjoyed home field advantage for years now as most events have been at Paul's homes in Petaluma.

Yes, that's it... FEAR! They had to pull a magic rabbit out of the hat last time to pull off the Miracle on Bungalow Street last summer and now the task is daunting... an away game? AARRRRGGG!

They are like the Fly in the 1950's classic movie, "Help me, Help me!"

Well maybe they will just have to forfeit the match. yes the Mighty Meister, new and improved, better than ever the new National Champs! That has a nice ring to it.

Mysterious Foul

OLYMPIA - A horrendous and noxious odor has been reported in and around Olympia the last several days. It seems this odor traveled down from Seattle where it has been stinking up the air for several weeks. Attempts to link it to industrial pollution have failed.

Further investigation reveals that it is emanating from the hind quarters of a red, white and blue jackass that has been tampering with the recent gubernatorial elections.

Newly installed Governor Gregoire has been trying desperately distance herself from the awful and rank smell but it just won't seem to quit following her all around the capitol city. Democrats insist it's not the smell of dead voters, it's just a co-incidence.
